AIMS OF THE CONFERENCE

The conference is organized in the framework of the research project “Development of innovative products and technologies for organic fruit production” supported by the EU Regional Development Fund through the Polish Innovation Economy Operational Program, contract N. UDA-POIG.01.03.01-10-109/08-00.

Organic farming is considered a production method that fulfils both the needs of environment-oriented agricultural practices and production of healthy food, as required by EU policies. The increasing interest in organic fruit production and consumption in all EU, including Poland, is fostering also the research of new technologies that can support the requests from organic horticultural producers and manufacturers of agricultural means of production. The conference aims at contributing to the dissemination of the newest scientific results about organic horticultural crops among researchers and advisors, with specific focus on innovative methods, products and technologies.

MAJOR TOPICS:

- soil management,
- fertilization and irrigation,
- plant protection,
- production methods,
- post-harvest quality,
- safety assessment of organic products,
- economics and market,
- variety trials,
- environmental impact.

IMPORTANT DEADLINES

- Registration of contributions with a short abstract (form attached) sent by email to the secretary address (e-mail: Katarzyna.Bisko@inhort.pl) by 31.05.2014
- Submission of extended abstracts or papers sent by email address to the secretary address by 31.07.2014
PRESENTATIONS

The programme includes oral and poster presentations.

Oral presentations

Two kinds of presentations are planned.

Invited speakers: 25 minutes presentation + 5 minutes discussion

Offered papers: 12 minutes presentation + 3 minutes discussion

Poster presentations

Posters will be presented during the poster session. Authors of the most interesting posters might be invited by the organizers to an oral spotlight presentation (5 minutes, maximum 6 slides), in each session.

PROCEEDINGS

All extended abstracts will be published in the conference proceedings.

Invited, offered papers and posters have equal status and will be given the possibility to publish on the Journal of Horticultural Research or in the Zeszyty Naukowe Instytutu Ogrodnictwa following their editorial rules.

REGISTRATION FEES

The registration to the conference is free of charge. The Organizers will provide the proceedings.

**Instruction for extended abstract**

The extended abstract will be published in the conference proceedings. It is required to be sent as a Word file of up to 2 A4 pages, with all margins of 2.5 cm. The font shall be Times New Roman 12 pt., with line spacing 1. Tables and graphs are welcomed; if a picture has to be enclosed, it must be in B/W and submitted separately as a jpg file, leaving sufficient space in the text for its positioning.

**Instruction for poster presenters**

A display panel will be allocated to all posters presenters. Posters are requested to be A0 paper size (70x100, portrait format only). The organiser will supply scotch tape to attach the posters to the panel.

Posters must be legible from a distance of a least 2 metres.

It is suggested to have headings with the smallest letters of 12mm (capitals 17mm) and the text of 7mm (capitals 9mm).

Poster should have a single, eye-catching, easy to follow message. It is suggested to include a photograph of the presenting author for identification, along with authors(s) address. Use colour pictures, graphs and diagrams in preference to tables.
