

Journal of Apicultural Science

The **Journal of Apicultural Science** is a scientific, English-language journal that publishes both original research articles (including short communication papers) and review papers covering all aspects of the life of bees (superfamily Apoidea) and broadly defined apiculture:

- bee biology
- bee genetics
- bee breeding
- pathology and toxicology
- pollination and bee botany
- bee products
- management, technologies, and economy
- solitary bees and bumblebees

The **Journal of Apicultural Science** has been published by the National Institute of Horticultural Research and Apicultural Research Association twice a year in paper and online versions since 2001. The Journal is a continuation of the former scientific periodical “Pszczelnicze Zeszyty Naukowe,” issued from 1957 to 2000. Archive issues of Pszczelnicze Zeszyty Naukowe are available at website <https://miesiecznik-pszczelarstwo.pl/pszczelnicze-zeszyty-naukowe?title=&author=&year=> and issues of the Journal of Apicultural Science published since 2001 to 2011 are available at the original Journal’s website (www.jas.org.pl). Issues

published after 2011, are available on the publisher's website at https://content.sciendo.com/view/journals/jas/jas-overview.xml?tab_body=toc-79151

After acceptance, articles are given DOI numbers, assigned to successive volumes and issues, and published online by Sciendo (sciendo.com/journal/JAS), which has used the open access model since 2012.

This journal provides immediate open access to its content under the Creative Commons BY 4.0 license. Authors who publish with this journal retain all copyrights and agree to the terms of the above-mentioned CC BY 4.0 license.

Manuscripts should be submitted via the Manuscript Editorial System at www.editorialsystem.com/jas by the corresponding author, who acts for all authors.
